To whomsoever it may concern

We have installed Dual fuel conversion kit (ProDFK) for conversion of our 625 Kva Kirloskar genset to PNG dual fuel genset. This was done to reduce the emission and the running costs of the generator in addition to being in conformity with the pollution norms.

The DG set and the Kit are running satisfactorily.

We are extremely satisfied with the performance of the kit and the services provided by Fuel Flip Energy (C/o K Service Station) for the supply, installation and commissioning of the Dual fuel Kit.

For Aditya Urban Casa AOA
