To whomsoever it may concern

In order to reduce our standby power generation cost and a reduction in Diesel Genset emission, we have installed Dual fuel conversion kit (ProDFK) for conversion of our 320 Kva Cummins genset to PNG dual fuel genset.

We are satisfied with the operation and running of the kit. We are also very satisfied with the efforts and the services provided by Fuel Flip Energy (C/o K Service Station) for the supply, installation and commissioning of the Dual fuel Kit.

For Sunlord Apparels Mfg. Co. Pvt. Ltd.

Director
